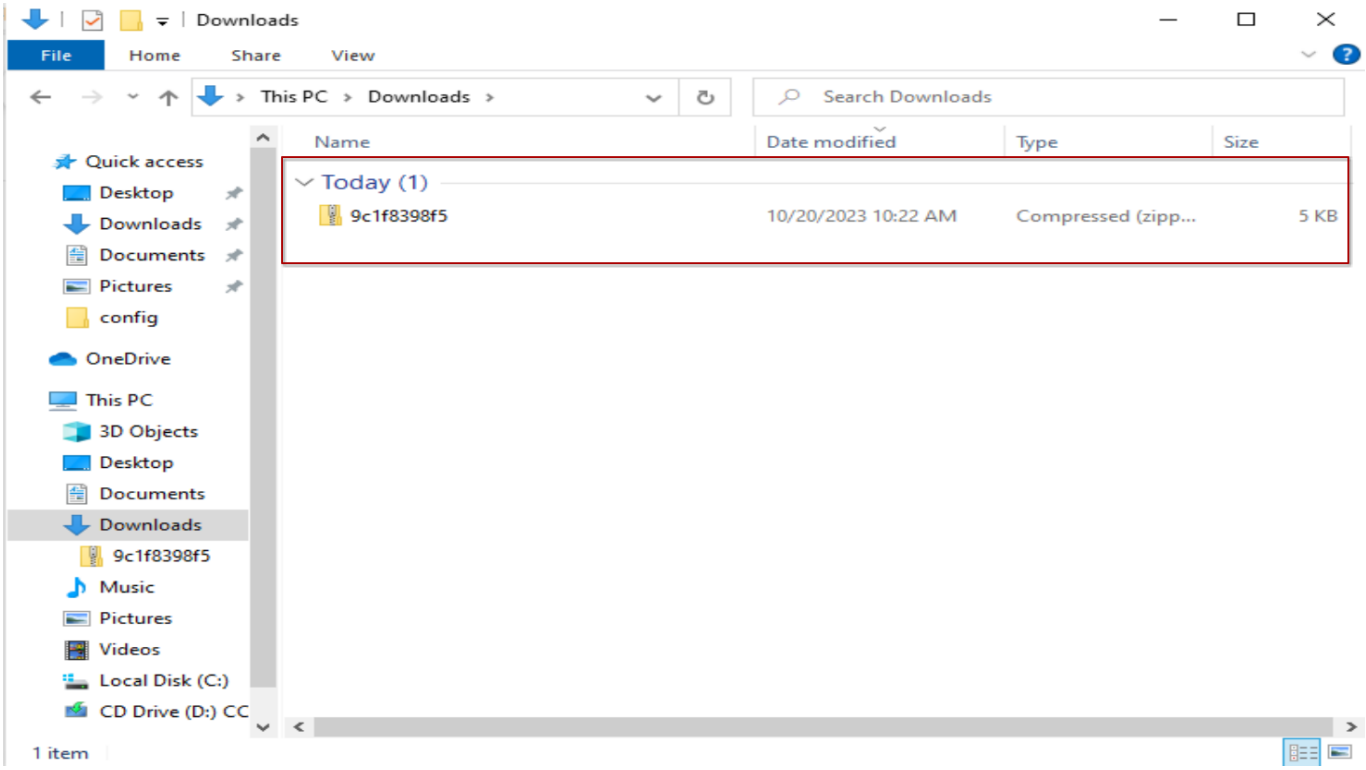
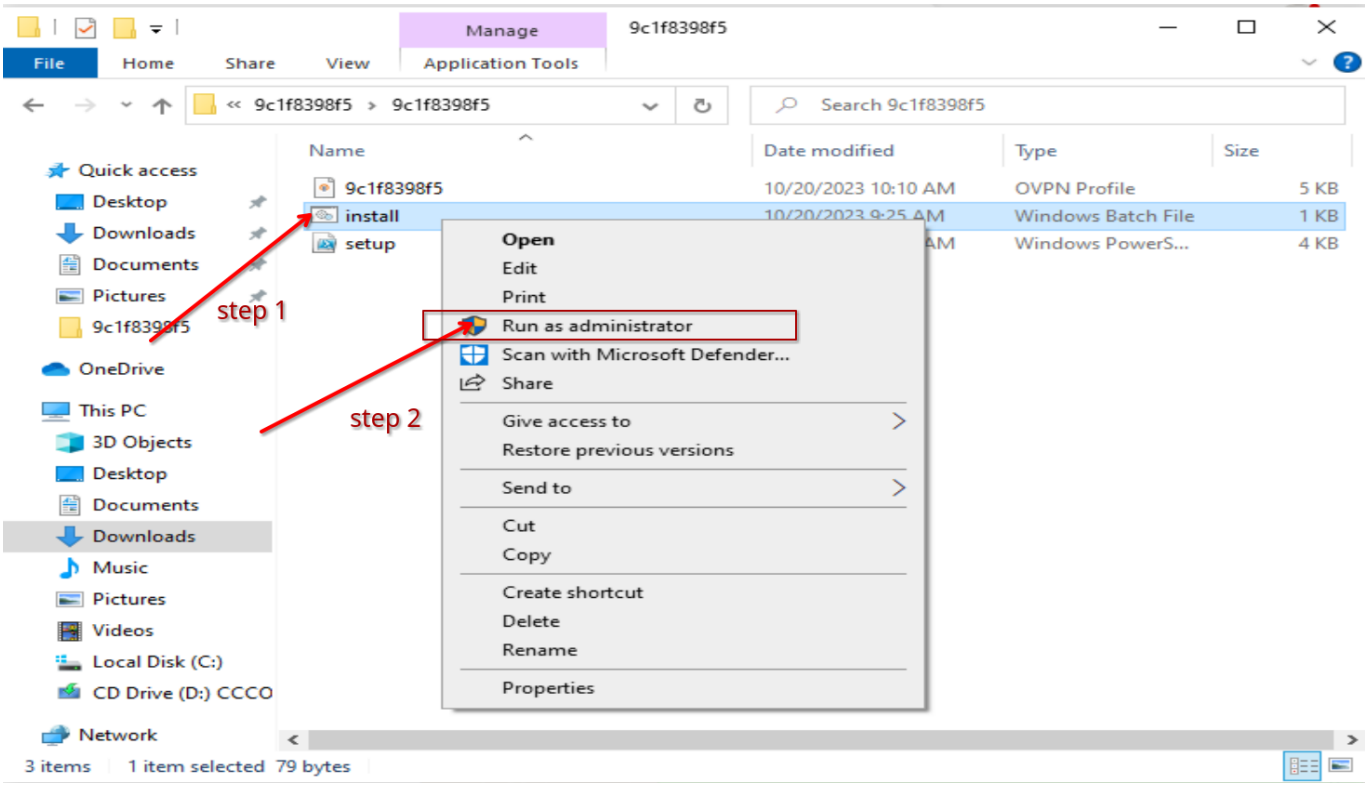
Stealth Stream Installation Guide

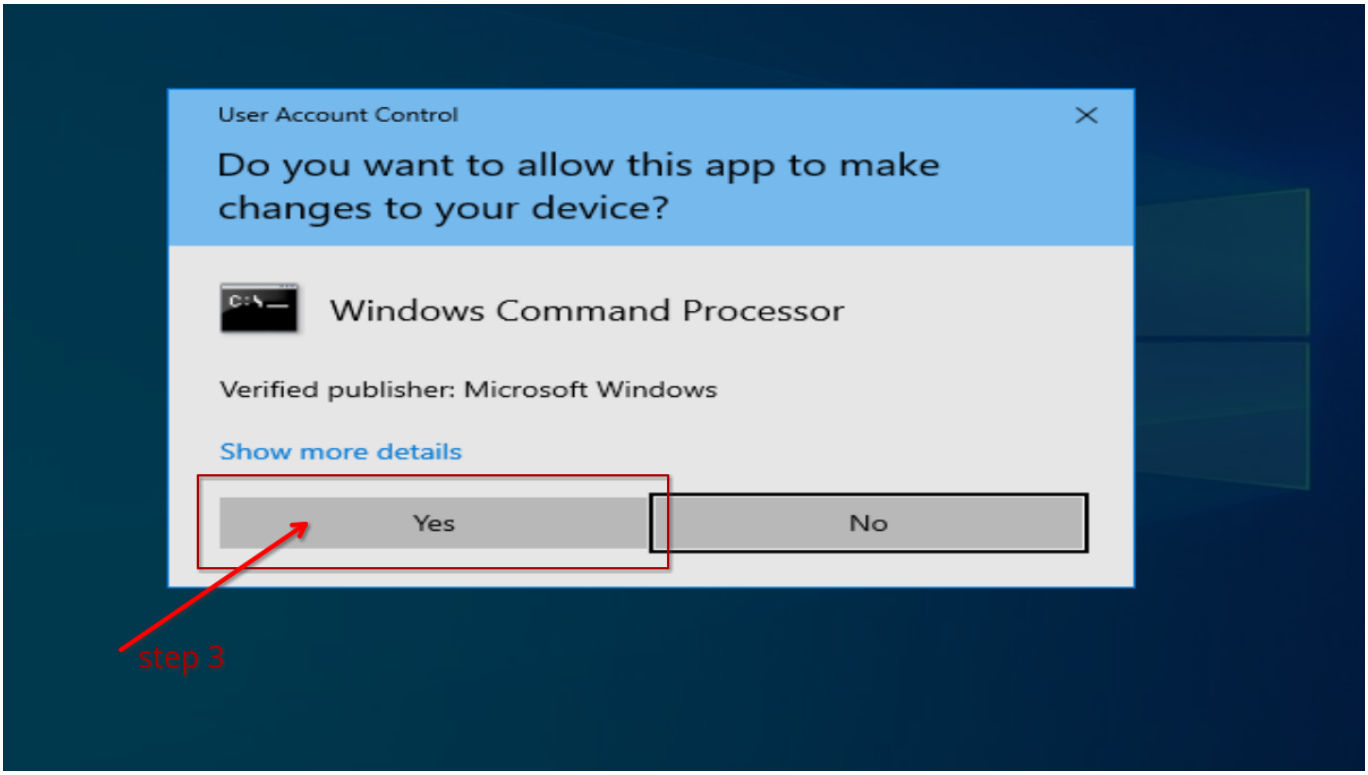
1. Unzip the folder -- and you should have 3 files,
    - Install
    - setup
    - Configuration for ur vpn-client



Make sure to run the install as administrator



You will see a screen similar to this, click at yes and the installation will begin



cmd will pop up to install all the required files for the vpn to work -- (DO NOT CLOSE IT) -- This step might take a little long, depends on your internet speed.
